PREMIUM · WOMEN

Well Woman

Our most comprehensive check for women

★ BEST VALUE**£189****47 MARKERS****ADDS ON TOP OF ADVANCED**

Female hormones (oestradiol, FSH, LH)

B12 & folate

HbA1c

hs-CRP

Magnesium

Best for: a full annual review or hormone-related symptoms.

PREMIUM · MEN

Well Man

Our most comprehensive check for men

★ BEST VALUE**£189****50 MARKERS****ADDS ON TOP OF ADVANCED**

Testosterone

B12 & folate

HbA1c

hs-CRP

Full white-cell differential

Magnesium

Best for: a full annual review, low energy or libido.

Every test includes: a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

Heart & Cholesterol

Understand your heart and cardiovascular risk — from a simple cholesterol check to the advanced, inherited-risk markers most clinics don't offer.

BASIC

Heart Health Check

Your core cardiac risk

£75

8 MARKERS

WHAT'S TESTED

Total, HDL & LDL cholesterol

Triglycerides

Cholesterol ratios

HbA1c

hs-CRP

Best for: a first heart check or keeping an eye on cholesterol.

BETTER

Heart & Metabolic Profile

Heart plus liver health

★ BEST VALUE

£99

16 MARKERS

ADDS ON TOP OF HEART HEALTH

Full liver function panel

Proteins (albumin, globulin)

Bilirubin

Best for: a fuller picture of heart and metabolic health together.

PREMIUM

Advanced Cardiac Risk Profile

Advanced inherited-risk markers

£225

18 MARKERS

ADDS ON TOP OF HEART & METABOLIC

Apolipoprotein B (ApoB)

Lipoprotein(a) – Lp(a)

Best for: a family history of heart disease, or anyone wanting the fullest cardiac risk picture.

Every test includes: a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

Metabolic Health

From blood sugar to insulin resistance to weight management — the tests that show how your body handles energy, and how to take control.

BASIC

Diabetes Check

Your 3-month blood sugar

£75

1 MARKER

WHAT'S TESTED

HbA1c (3-month average glucose)

Best for: diabetes screening, or monitoring if you already know your levels.

BETTER

Insulin Resistance Check

Catch it early

★ BEST VALUE

£99

3 MARKERS

FASTING REQUIRED

WHAT'S TESTED

Fasting glucose

Fasting insulin

HOMA-IR score

Best for: weight concerns, PCOS, or a family history of diabetes.

PREMIUM

Weight & Metabolic Profile

The full metabolic picture

£119

22 MARKERS

WHAT'S TESTED

Glucose & insulin

Thyroid function

Full lipids

Liver & kidney

HbA1c

Best for: anyone tackling weight or wanting a full metabolic work-up.

PREMIUM

GLP-1 Weight-Loss Injection Monitoring

Ozempic / Mounjaro / Wegovy

£179

43 MARKERS

WHAT'S TESTED

Full metabolic panel

Thyroid

Liver, kidney & pancreas

Lipids & HbA1c

Nutrients

Best for: anyone on or starting Ozempic, Mounjaro or Wegovy.

Every test includes: a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

Thyroid

Tired, cold, gaining weight or losing hair? Your thyroid is often the answer. Choose from a quick check to a full autoimmune screen.

BASIC

Thyroid Check

Is your thyroid working?

WHAT'S TESTED

TSH

Free T4

Best for: a first thyroid check or a quick screen.

£65

2 MARKERS

BETTER

Thyroid Function

A fuller thyroid picture

ADDS ON TOP OF THYROID CHECK

Free T3 (active hormone)

Best for: ongoing symptoms when a basic check looks normal.

£85

3 MARKERS

PREMIUM

Thyroid & Hashimoto's

Check for autoimmune thyroid

ADDS ON TOP OF THYROID FUNCTION

Thyroid Peroxidase antibodies (TPO)

Thyroglobulin antibodies

Best for: fatigue, weight change or a family history of thyroid disease.

★ BEST VALUE

£129

5 MARKERS

- ✓ **Every test includes:** a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

Hormones

Any hormone can be tested on its own, timed correctly for an accurate result. Every result comes with a written GP report explaining what it means for you.

Want several hormones together?

Each hormone can be tested on its own at the price shown. If you'd like **more than three individual tests combined into one bespoke panel**, contact us for an **individual quotation** and we'll tailor it to you.

HORMONE	PRICE	WHEN TO TEST
Testosterone	£75	Morning (before 11am)
Oestradiol (E2)	£75	Day 2-5 if checking fertility
Progesterone	£75	Day 21 of a 28-day cycle
Prolactin	£75	Morning, rested
FSH	£75	Day 2-5 of cycle
SHBG	£75	—
DHEA-Sulphate	£75	—
LH	£85	Day 2-5 of cycle
AMH – Ovarian Reserve	£119	Any day of cycle
Cortisol (blood)	£119	Morning (9am)
Aldosterone	£149	Ask us before booking
DHT (Dihydrotestosterone)	£179	—
Oestrone (E1)	£179	—
Pregnenolone	£209	—

Timing matters: hormones change through your cycle and across the day, so testing at the right time gives a result you can trust. Not sure when to come in? Just ask.

Every test includes: a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2-5 working days — specialist, allergy & genetic tests may take longer.

Men's Health

From testosterone to prostate health, hair loss and beyond — testing built around the questions men actually ask, with a doctor's report to explain it.

BASIC

Testosterone Check

Core male hormone

£75

4 MARKERS

WHAT'S TESTED

Total testosterone

Free testosterone

SHBG

Albumin

Best for: low energy, libido or a first testosterone check.

BETTER

Male Hormone Profile

A fuller hormone picture

★ BEST VALUE

£139

10 MARKERS

ADDS ON TOP OF TESTOSTERONE CHECK

LH & FSH

Oestradiol

Prolactin

DHEA-S

Free androgen index

Best for: fertility questions or unexplained hormonal symptoms.

PREMIUM

Comprehensive Male Hormone & Health Profile

The complete picture — also used for TRT monitoring

£169

37 MARKERS

ADDS ON TOP OF MALE HORMONE PROFILE

Full hormone panel

Lipids & HbA1c

Liver & kidney

PSA

Haematocrit

Best for: a complete male work-up, or men on or starting TRT.

PROSTATE

PSA Test

£65

1 MARKER

Prostate Specific Antigen — the standard prostate screening marker.

Best for: routine prostate screening (age, symptoms or family history).

PROSTATE

Prostate Profile

£99

3 MARKERS

Free and total PSA with their ratio, for a more informative prostate result.

Best for: a raised PSA or a fuller prostate check.

SEXUAL FUNCTION

Erectile Dysfunction Profile

£115

15 MARKERS

Explores the hormonal, metabolic and vascular causes behind erectile difficulties.

Includes: Testosterone, thyroid, glucose, lipids, prolactin

HAIR LOSS

Male Hair Loss Profile

£195

38 MARKERS

A thorough look at the hormonal and nutritional drivers of male hair loss.

Includes: Hormones, thyroid, iron, ferritin, vitamins

SCREENING

Male Tumour Markers

£199

4 MARKERS

A panel of cancer-associated proteins. Best used alongside symptoms or family history, guided by your doctor.

Includes: PSA, CEA, AFP and more

Every test includes: a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

Women's Health

Testing for every stage — fertility, menopause, PCOS, HRT and more — timed to your cycle for results you can rely on.

MENOPAUSE

★ BEST VALUE

Menopause Profile **£99**

5 MARKERS

The hormone picture behind peri- and menopausal symptoms, to help you understand what's changing.

Includes: FSH, LH, oestradiol and more

Best for: hot flushes, irregular periods or mood changes.

PCOS

Polycystic Ovary Syndrome Profile **£235**

18 MARKERS

A combined hormone and metabolic screen for suspected PCOS — the fuller picture behind irregular cycles, acne, weight changes or excess hair growth.

Includes: Testosterone, FSH, LH, SHBG, thyroid, glucose, insulin, lipids

FERTILITY

Fertility Profile **£99**

5 MARKERS

Core female fertility hormones, timed to your cycle for an accurate picture.

Includes: FSH, LH, oestradiol, prolactin

Best for: planning a pregnancy or understanding your cycle.

FERTILITY

Fertility + Egg Reserve **£169**

6 MARKERS

The Fertility Profile plus AMH — the best single marker of your ovarian (egg) reserve.

Includes: Fertility hormones + AMH

Best for: a fuller fertility picture, or planning ahead.

HRT

HRT Monitoring **£99**

3 MARKERS

Checks your hormone levels while on HRT so your treatment can be tailored to you.

Includes: Oestradiol, FSH and more

Best for: anyone on hormone replacement therapy.

OVARIAN RESERVE

AMH — Ovarian Reserve **£119**

1 MARKER

Anti-Müllerian Hormone — a snapshot of your egg reserve, testable any day of your cycle.

Best for: fertility planning or checking ovarian reserve.

HAIR LOSS

Female Hair Loss Profile **£195**

31 MARKERS

A thorough look at the hormonal, thyroid and nutritional causes of female hair loss.

Includes: Hormones, thyroid, iron, ferritin, vitamins

HAIR LOSS · ADVANCED

Female Hair Loss Advanced **£230**

33 MARKERS

Everything in the Female Hair Loss Profile, plus thyroid antibodies to investigate possible autoimmune thyroid involvement.

Includes: Adds anti-TPO & anti-TG antibodies

SCREENING

Female Tumour Markers **£199**

5 MARKERS

A panel of cancer-associated proteins including CA125. Best used with symptoms or family history, guided by your doctor.

Includes: CA125, CEA, CA19-9 and more

Every test includes: a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

Sports & Fitness

Train smarter with data. From a performance baseline to a complete athlete panel, see what's driving — or limiting — your training.

BASIC

£189

21 MARKERS

Our fullest child panel

ADDS ON TOP OF HEALTH CHECK

Thyroid function

Best for: fatigue, growth or weight concerns.

Children's Coeliac Screen

£149

3 MARKERS

Gluten & coeliac antibodies
(also under Specialist & Genetic)

WHAT'S TESTED

Total IgA

tTG-IgA

Gliadin antibodies

Best for: tummy pain, bloating or poor growth.

BUNDLE

Basic Bundle

★ BEST VALUE

£289

ONE DRAW

Health Check + Food Intolerance — save £39

INCLUDES

Children's Health Check

Food Intolerance (200 foods, IgG)

Best for: the classic "tired and off their food" question.

BUNDLE

Premium Bundle

£399

ONE DRAW

Health + Thyroid + Coeliac + Intolerance — save £98

INCLUDES

Health Check + Thyroid

Coeliac screen

Food Intolerance (200 foods)

Best for: a thorough one-visit investigation.

Every test includes: a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2-5 working days — specialist, allergy & genetic tests may take longer.

Allergies & Intolerances

Two different questions: a true allergy (IgE) or a food intolerance (IgG). We offer both — all as a venous blood draw — and help you understand the difference.

SINGLE**Single Allergen Test****£75****1 ALLERGEN**

A true (IgE) allergy blood test for one specific allergen of your choice.

Best for: confirming one suspected allergy.

TARGETED**Individual Allergy Panel****£199****5 ALLERGENS**

Choose any five allergens to test together — ideal when a few specific triggers are suspected.

Includes: Any 5 allergens (IgE)

FOOD & ENVIRONMENTAL**Food & Environmental Allergy Test****£179****42 ALLERGENS**

IgE reactions across 23 food and 19 environmental allergens — a broad everyday screen.

Includes: 23 food + 19 environmental (IgE)

NUTS**Nut Allergy Panel****£249****13 ALLERGENS**

Tests IgE reactions to 13 common tree nuts and peanuts.

Includes: Peanut, almond, hazelnut, walnut, cashew & more

COMPREHENSIVE**ALEX Explorer Allergy Test****£329****295 ALLERGENS**

Our most comprehensive IgE screen — 295 allergens across foods, pollens, animals and moulds.

Includes: Foods, pollens, animals, dust & moulds

FOOD INTOLERANCE · IGG**★ BEST VALUE****Premium Food Intolerance Test****£179****200 FOODS**

An IgG test across 200 food items to guide a structured elimination diet. Not an allergy or diagnostic test — best used with nutritionist guidance.

Includes: 200 food items (IgG)

Best for: bloating, IBS-type symptoms or low energy after meals.

- ✓ **Every test includes:** a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

Sexual Health

Discreet, judgement-free testing — from a single test to a full screen, with results explained by a doctor.

SCREENING

★ BEST VALUE

Full STI Blood Screen**£129****4 INFECTIONS**

A blood screen for the four key infections: HIV, syphilis and hepatitis B & C.

Includes: HIV, syphilis, hepatitis B & C

Best for: routine screening or a new relationship.

SCREENING**Comprehensive STI Screen****£179****6 INFECTIONS**

Our fullest screen — the blood-borne infections plus chlamydia and gonorrhoea.

Includes: HIV, syphilis, hep B & C, chlamydia, gonorrhoea

Best for: a complete sexual health check.

SINGLE TEST**HIV Test****£75****1 TEST**

A confidential 4th-generation HIV test (antibody and p24 antigen).

Best for: reassurance or routine screening.

URINE PCR**Chlamydia & Gonorrhoea****£129****2 INFECTIONS**

A urine PCR test for the two most common bacterial STIs — no blood needed.

Best for: screening without symptoms, or after a risk.

HEPATITIS**Hepatitis B Profile****£119****3 MARKERS**

Checks your hepatitis B status — infection and immunity.

Best for: screening, vaccination check or travel.

HEPATITIS**Hepatitis A, B & C Profile****£169****6 MARKERS**

A full hepatitis screen across A, B and C in one panel.

Best for: a complete hepatitis check or travel.

OCCUPATIONAL**Needlestick Injury Screen****£195****3 INFECTIONS**

HIV, hepatitis B and hepatitis C — the standard screen after a needlestick or exposure at work.

Includes: HIV, hep B, hep C

Best for: healthcare workers, tattooists and employers.

Every test includes: a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

SPECIALIST TESTING

Specialist & Genetic

Less common but important tests — autoimmune, coeliac, inherited conditions, tick-borne infections and more — many not offered anywhere else locally.

COELIAC & GLUTEN

Coeliac Screen	gluten & coeliac antibodies (children's version also available)	£149
Advanced Coeliac Profile with HLA Genotype	adds DQ2/DQ8 genes	£499

AUTOIMMUNE & RHEUMATOLOGY

Rheumatology & Joint Profile	hs-CRP, rheumatoid factor, anti-CCP	£159
Antinuclear Antibodies (ANA)	autoimmune screen	£99
Rheumatoid Factor		£89

IRON OVERLOAD & GENETICS

Iron Overload Profile	includes the HFE (haemochromatosis) gene	£429
Factor V Leiden	thrombophilia / clotting risk	£399

BLOOD DISORDERS

Haemoglobin Electrophoresis	thalassaemia & variants	£129
Sickle Cell Screen		£129
G6PD		£129
Blood Group	ABO + Rh	£99

DIGESTIVE, INFECTIONS & ENZYMES

H. pylori (blood)	reflux, digestive symptoms, low iron/B12	£109
Lyme Disease	Borrelia IgG/IgM	£169
DAO / Histamine Intolerance		£155
Pancreatic Profile	amylase + lipase	£149
Gastric Parietal Antibodies	pernicious anaemia / B12	£109

ADVANCED NUTRITIONAL MARKERS

Vitamin B12 Active	holotranscobalamin	£96
Methylmalonic Acid	functional B12 status	£261

COPPER METABOLISM

Copper		£139
Ceruloplasmin		£129
Lactate Dehydrogenase (LDH)		£75

Tooth Implant Panel Vitamin D, CRP, HbA1c, G6PD + full iron panel**£246**

The Tooth Implant Panel sources ferritin via a full iron panel, giving 9 markers in total rather than 5. Many additional individual markers are available on request — including advanced vitamins, minerals, infection markers, autoimmune markers, tumour markers, specialist hormones and digestive markers. Please contact us if you are looking for a specific test.

- ✓ **Every test includes:** a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

SINGLE TESTS

Individual Markers

Prefer to check just one thing? These singles are also listed within their category above — collected here for quick reference. In most cases a profile gives far more for your money, but the choice is always yours.

One test, or a profile?

A single marker is **£75**. For the same visit, many of our profiles test five markers or more from **£95** — so a profile is usually the better value.

VITAMINS & MINERALS

Vitamin D	25-OH Vitamin D	£75
Vitamin D + Calcium	bone mini-profile	£95
Vitamin B12		£75
Vitamin B12 Active	holotranscobalamin	£96
Folate		£75
Ferritin	iron stores	£75
Magnesium		£75

OTHER SINGLE TESTS

PSA	prostate specific antigen	£65
HbA1c	3-month blood sugar	£75
HIV		£75
H. pylori (blood)	digestive symptoms, low iron/B12	£109
Creatine Kinase	muscle damage / overtraining	£75
Single Allergen	one specific IgE allergen	£75

Individual hormones are listed under Hormones. Many other single markers are available on request — just ask.

- ✓ **Every test includes:** a full venous blood draw · UK-accredited laboratory analysis · a written GP report · fully inclusive pricing, no hidden fees. Most results in 2–5 working days — specialist, allergy & genetic tests may take longer.

Need help choosing?

Not sure which test is right for you? Send us a message and we'll help you choose the most suitable profile based on your symptoms, goals and health concerns.
